Subject: Letter of Recommendation for Kevin Watkins

To Whom It May Concern:

Kevin Watkins working directly for Tektility, Inc. has maintained and supported our computers and networks since June, 2006. Kevin also takes care of video surveillance systems at all ten of our stores. He also acts as our liaison with our service providers for Internet and specialized software we use in our daily business activities.

Kevin has been solely responsible for all technology upgrades and maintenance for the chain stores including the Head Office for High Up Dairy Mart, Inc. DBA Gas Mart Inc. With his help and knowledge, our network has grown from a two computer network to thirteen computers, including 6 virtual systems for our employees to telecommute, and 5 servers.

We are pleased with Kevin's service and prompt response he has provided to all of our technical challenges over the last 4 plus years and counting. He has been highly professional and has performed all of his job responsibilities to the best of his ability.

This is our recommendation letter for Kevin Watkins as being an honest, responsible and motivated employee for Tektility, Inc. We wish him our best in all of his future endeavors.

Best Regards,

Gurcharan Lail

President

High Up Dairy Mart, Inc
